WHY DO YOU NEED A PET WASTE EXPERT?

We both know that no matter what you do and how hard you try, some people just don't pick up the poop. Residents complain, clients think it's gross, prospective customers get rubbed the wrong way. It just....stinks.

Maintenance teams dread the task therefore avoiding it like the plague, and landscapers put forth minimal effort leaving mounds behind that they think no one will see. You can't really blame them. It's a dirty job and not really the one they are there for. Alas, the poop hangs around and you get to deal with the aftermath. Until now.

Ur Pooper Scooper is just that, a professional Pooper Scooper. We are 100% focused on one thing - getting rid of ALL the poop to ensure your beautiful landscaping doesn't emit that gross pet stank smell. Your customers will see (and smell) the difference and thank you for it. Prospective customers will be impressed and appreciate your attention to the details.

PET WASTE IS A SAFETY HAZARD

Did you know that pet waste can be home to parasites and bacteria like Salmonella and E coli? Yuck! Even worse, once removed bacteria can live in the soil for weeks.

OUR SERVICES
